Principal Dyke of the Kamehameha schools has made some important changes at the institution. The instruction in the trades now takes place in the morning and the mental work has been changed to the afternoon. This has been done in order to give more time to the trades' instruction. However, the change has not necessitated any shortening of the hours for mental development.

GOVERNMENT OWNED CABLE FOR HAWAII

Buffalo, Sept. 16.—President Roosevelt has outlined in some detail the policy he will follow during his incumbency of office. It will be remembered that when he took the oath of office he stated with definiteness: "It shall be my aim to continue absolutely unbroken the policy of President McKinley for the peace (and he emphasized the word), prosperity and honor of the country."

Yesterday the President gathered together some personal friends in Buffalo and those members of the Cabinet who were here and gave to them such ideas as he had already formulated for the conduct of public affairs and his own policy. In no sense are they divergent from what has been understood as Mr. McKinley's policy. This policy, as outlined to his friends at yesterday's conference, will be for a more liberal and of more reciprocal ideas in the purchase and sale of commodities, so that the overproduction of this country can be satisfactorily disposed of by fair and equitable arrangements with foreign countries.

The abolition entirely of commercial war with other countries, and the adoption of more reciprocal treaties.

The abolition of such tariffs on foreign goods as are no longer needed for revenue, if such abolition can be had without harm to our industries and labor.

Direct commercial lines should be established between the Eastern coast of the United States and the ports in South America and the Pacific Coast ports of Mexico, Central America and South America.

The encouraging of the merchant marine and the building of ships which shall fly the American flag and be owned and controlled by Americans and American capital.

The building and completion as soon as possible of the Isthmus canal, so as to give direct water communication with the coasts of Central America, South America and Mexico.

The construction of a cable, owned by the Government, connecting our mainland with our island possessions, notably Hawaii and the Philippines.

The use of conciliatory methods of arbitration in all disputes with foreign nations, so as to avoid armed strife.

The protection of the savings of the people in banks and in other forms of investment by the preservation of the commercial prosperity of the country and the placing in positions of trust of men of only the highest integrity.
